

NATURAL GAS GETS BURNING IN CAVERN

Americans Make a Rich Find in Mexico.

BELONGED TO THE AZTECS

Great Store of Ornaments That May Have Been the Property of Some Prehistoric Race.

(By Associated Press.)

HERNANDEZ, MEX., Nov. 14.—A remarkably authenticated story of the discovery of hidden Aztec treasures has been reported to the government authorities at Tepic by the Rev. Padre Martino, the parish priest of Yescua. The priest makes a statement which is corroborated by several reliable witnesses that a party of Americans, headed by an archaeological expert named J. H. Rogers, arrived at Yescua several weeks ago and went thence into the mountains, accompanied by three Mexican guides.

The archaeologist obtained his bearings by means of a chart, which he claimed to have copied from an Aztec tablet in the National Museum in the city of Mexico. He located a vast cavern in a mountain near Yescua. Immense stone images stood about this chamber. In one end was a handsome altar, above which burned a bright flame supplied by natural gas from a crevice in the wall.

In a chamber adjoining this main temple was found a great store of ornaments and utensils belonging to the Aztecs or some other prehistoric race. Twelve burros were required to carry the articles taken from the cave to San Blas, where they were shipped to San Francisco, accompanied by the Americans.

These articles cannot be removed from Mexico without the consent of the government, an investigation is in progress.

BONES OF GEN. GREENE

They Were Reinterred Yesterday at Savannah, Ga.

(By Associated Press.)

SAVANNAH, Ga., November 14.—With military and civic honors the remains of General Nathaniel Greene were reinterred this afternoon at the base of the monument erected in his memory in Johnson Square. At the same time and in the same vault were laid away the bones of George Washington Greene, the son of the distinguished general, who died in the Chatham Artillery from brass cannon presented to that organization by George Washington when he was President of the United States.

The invocation at the monument was pronounced by Rev. C. B. Nelson, bishop of the Episcopal Diocese of Georgia. The tablet on the monument commemorating the general was unveiled by the Hon. Edward Kero, recent of the local chapter of the Daughters of the American Revolution and daughter of Congressmen Lester. Among the distinguished persons who participated in the exercises were Governor Charles D. Kimball, of Rhode Island; Senator A. O. Bacon, of Georgia; Mrs. Charles W. Fairbanks, of Indiana, and members of the Legislatures of Rhode Island and Georgia.

DESERTED VESSEL

Four Masted Schooner Flying Signals of Distress.

(By Associated Press.)

BALTIMORE, MD., Nov. 14.—Captain Crowley, of the schooner Henry W. Cramp, from Bangor, October 21st, reported that he had been driven from his vessel, the Henry W. Cramp, by a heavy sea, and that the vessel was full of water, but several sails were set and the vessel was being towed by the Cramp, falling to take down the signals or furl the sails. The vessel is a dangerous obstruction to navigation. The Cramp was caught in a hurricane and blown off the North Carolina coast. She sustained no serious damage.

REMARKABLE SUCCESS

Of A New Catarrh Cure.

A large and constantly increasing majority of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrhs. Formerly the name catarrh was applied almost exclusively to the common nasal catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages.

In fact, wherever there is a mucous membrane, there is a lurking ground for catarrh.

The usual remedies, inhalers, sprays, douches or powders, have been practically failures, as far as anything more than temporary relief is concerned, because they simply dry up the mucous secretions, without having the remotest effect upon the blood and liver, which are the real sources of catarrhal diseases.

It has been known for some years that the radical cure of catarrhs could never come from local applications, but from an internal remedy, acting on the blood and expelling the catarrhal poison from the system.

A new internal preparation which has been on the market only a short time, but with remarkable success as a genuine, radical cure for catarrh.

It may be found in any drug store, sold under the name of Stuart's Catarrh Tablets, large, pleasant tasting lozenges, composed principally of antiseptic ingredients. Blotchy, red gum and similar catarrh specifics.

Dr. Ansie in speaking of the new catarrh cure says: "I have tried the new catarrh remedy, Stuart's Catarrh Tablets, under thirty or forty patients, with remarkably satisfactory results. They clear the head and throat more effectively and lastingly than any douche or inhaler that I have ever seen, and although they are what is called a patent medicine and sold by druggists, I do not hesitate to recommend them as I know them to be free from cocaine and opiates, and that even a little child may use them with entire safety."

Any sufferer from nasal catarrh, throat or bronchial trouble, catarrh of the stomach, liver or bladder will find Stuart's Catarrh Tablets remarkably effective, pleasant and convenient, and your druggist will tell you they are absolutely free from any injurious drug.

WOMANLY HEALTH

The woman who neglects her health is neglecting the very foundation of all good fortune. Without health, no woman can be happy, and gold is but dust.

Womanly health may be retained or regained by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

Sick women are invited to consult Dr. Pierce by letter. His correspondence held as strictly private, and is entirely confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I have taken six bottles of Dr. Pierce's Favorite Prescription," writes Miss M. E. Orla, Kinross, Co., Ontario, "and two bottles of 'Pleasant Pellets' as you advised for congestion of uterus, ovaries, and weakness, and can safely say that your medicine has been the means of restoring me to good health again, which I had not had for over three years, until taking your medicine. I have been very much benefited and am now able to do my usual work."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath.

Silk Culture in North Carolina

Board of Agriculture is Distributing Silk Worms' Eggs Free.

MULBERRY TREES AT COST

Col. A. W. Shaffer Reported to Be in Extremis in a Sanitarium in New York—Prospects for Tobacco, Horse and Cuggy Closen.

(Special Dispatch to The Times.) RALEIGH, N. C., Nov. 14.—The State Board of Agriculture is making special efforts to establish silk culture in the State. They are distributing silk worms' eggs free, and are also distributing mulberry trees to supply mulberry trees for providing leaves to feed the worms at the cost of transportation, which is one cent for each bush.

Mr. W. M. Reynolds, general manager of the R. Reynolds Tobacco Company, of Winston-Salem, visited the Raleigh market today and is much pleased with the conditions and prospects. He says he does not believe there will be any perceptible drop in the prices of tobacco from some time to come, and that whatever slump there is will not be attributable to the understanding reached between the American and Imperial companies. He says the great quantity of tobacco put on the market the past two months has offered every exporter a chance to sell at a profit. He said that he has bought all offered and paid the usual high price for it. The R. J. Reynolds Company bought more on the various markets during October than during any three months of their previous history. The R. J. Reynolds Company is the largest branch of the American Tobacco Company in this State.

A negro giving him name as Perry Skinnor, of Oxford, stole a horse and buggy from the Pope of this county, and was committed to jail this morning in default of \$100 bond. Dr. Pope had left his horse and buggy on Halifax Street while visiting a patient, and the negro came along, jumped in and drove off at a high speed. He was overtaken last night in Sax county, and he is probably sixty years old, and as an excuse for stealing the horse, says he just "took a fancy to the turnout."

MORAVIAN SYNOD

Interesting Meeting of Southern Province to Convene at Salem.

(Special Dispatch to The Times.) WILMINGTON, DE., Nov. 14.—The Moravian Synod of this (Southern) province will convene in the old Home Church, Salem, at 10 o'clock A. M. next Wednesday. The programme was arranged today.

At the first session the synod will organize, and will receive the various official reports of the past year in the province. Tuesday evening a missionary meeting of special importance to the church will be held. The address will be given by the Rev. H. H. Hatcher, bishop elect of the Moravian Mission in Central America.

On Wednesday evening will occur the consecration of Bishop Berkenhagen. This event is notable as the first time in the past century that the Southern province has been called upon to consecrate a bishop.

There will be about one hundred and fifty members attendant upon the synod, and it is expected that matters will be discussed during the meeting which will have a bearing of great importance upon the work of the church in the southern province.

SUICIDE IN SALISBURY

M. L. Ritch, a Grocery Merchant, Shoots Himself Through the Head.

(Special Dispatch to The Times.) SALISBURY, N. C., Nov. 14.—M. L. Ritch, a grocery merchant here, committed suicide this morning by shooting himself in the head. He was in the place of business at the time and died almost instantly. For some time he kept a saloon, but several years ago upon the death of his wife and daughter he gave up the saloon business and opened the grocery store, which he has conducted since then. Dependancy on account of trouble is the only cause assigned for the crime.

The appearance of scarlet fever in town and the malignant type of the disease, which caused the death of one child this week, is causing considerable anxiety in the community.

FIRST LIQUOR BILL IS INTRODUCED

Mr. West, of Louisa, Offers One in the House, Which Will Provoke Great Fight.

The first step in the great fight for a modification of the present liquor laws was taken yesterday when Hon. Frank T. West, of Louisa, offered a sweeping bill on the subject in the House.

The bill proposes to practically uproot the present system, and it contains many interesting features.

Those that will provoke discussion before the House and most opposition on the part of its opponents are the open door feature, the closing of places of business between 10 o'clock at night and 1 o'clock A. M., and the granting of the right of legal voters by a written remonstrance to prevent the granting of a license and the amount of the license tax to be paid—\$200 to the State and not less than \$500 more than \$500 for the county, town or city, in which the license is granted.

It provides that the application shall be made in writing and notice thereof be posted at three public places in the district of the county or of the ward of the city or town, in which the license is proposed to be conducted, and that a majority of the signatures of those who voted at the last previous election for the highest office then before the people to a remonstrance against the granting of said application shall prevent the granting of a license to any one for the next two years. The bill provides for open or transparent doors and windows, for the business to be conducted in a building separate and apart from others.

It is said that the liquor people are organizing and will fight any and all bills designed to make any material changes in the present system.

BAPTISTS DISCUSS EDUCATIONAL WORK

(Continued from First Page.)

EXTRAORDINARY POWER.

Rev. M. A. Jones, of Richmond, called attention to the extraordinary powers granted to the Commission, and said that without opening the question whether or not the body is ready to take this irrevocable step.

Dr. John Pollard thought there could be no power or authority above the trustees of an institution. He thought that the year just closed has been in every way a good one, the best in many respects in the history of our work. We have given to the work our best efforts, and the results are gratifying.

"The number of men in the employment of the Board has exceeded that of any previous year. Many of these are among our strongest and most efficient pastors—men filled with missionary zeal and aggressiveness.

The number of converts and additions to our churches through the labors of our missionaries during the past year was a large increase over the previous year—not less than 50 per cent.

The tabulated statement of the work of our thirty-seven missionaries shows that our mission work has cost \$28,282.00, and that we have secured 9,500 missions, baptized 1,236 converts, and aided pastors in other meetings in which 1,768 persons professed faith in Christ, paid 15,216 visits for religious instruction and prayer, organized 11 Sunday schools and 3 churches, are building 27 houses of worship, and completed 11. They raised for church building \$13,629.25, all of which was raised on their field except \$350.

Our co-operation with the colored Baptists of the State was never before so well organized and aggressively pressed as at present. The 4 missionaries held 40 institutes, aided in meetings in which 50 persons were received for baptism, and secured the baptism of 1,000 converts.

On motion of Dr. Thomas the consideration of the subject was put at 10 o'clock to-morrow.

RETIRING SECRETARY.

Then Rev. C. J. Thompson, the retiring field secretary, was the first speaker. The great audience which packed the great auditorium listened with unbroken attention to his fervent and stirring speech. Rev. C. J. Taylor made an interesting address.

Prof. R. H. Hednal, of Blacksburg, followed in brief statement of the needs of the Baptist cause at Blacksburg.

Dr. Hatcher then engineered a collection for Blacksburg, which amounted to nearly \$1,000.

Rev. C. E. Stuart offered a resolution asking the State Mission Board to appoint a central evangelist to work in the State. The session then adjourned.
